Amara

When it's right, it just clicks

PHILIPS

RESPIRONICS

Amara gel

- Conforms to the contours of the face, providing an exceptional seal and comfort
- Smaller and lighter than the leading traditional full face mask
- Our latest gel technology, designed to help improve patient success

Two options for comfort

With gel and silicone options and our one “click” design, Amara delivers performance and ease of use for your patients.

With the addition of a gel cushion option, Philips Respironics has made the ingeniously-simple Amara full face mask even more brilliant. Your patients can now choose the type of comfort they prefer in their cushion with gel or silicone options.

Gel

Silicone

Amara silicone

- Attractive option for patients who prefer the look and feel of clear silicone with seal performance
- The smallest, lightweight traditional full face mask on the market

Designed to help your patients succeed

Amara already offers the easiest cushion attachment among all leading traditional full face masks. Now, with gel, we're delivering a comprehensive fitting solution to help your patients succeed.

Less intimidating for new patients

For new patients, the introduction to CPAP therapy and to a full face mask can be daunting. With Amara's light weight, simple one "click" design and cushion options, you can give them a new alternative that fits over 95% of faces.

A new choice for compliant patients

Amara offers excellent seal with comfort and ease-of-use advantages to current traditional leading full face offerings. Both the gel and silicone options are smaller and lighter weight than the leading full face mask, and have 60% fewer parts.

Patients prefer Amara

Amara gel

- Soft
- Seal & comfort

Amara silicone

- Small & easy to use
- Lightweight

Benefits for patients

- **Simplicity** - Amara is lighter weight and has 60% fewer parts than the leading full face mask
- **Appeal** - Gel and silicone cushions offer patients the ability to choose their comfort preference
- **Performance** - Our best sealing and most comfortable traditional full face mask

Benefits for sleep labs

- **Simplicity** - Both gel and silicone options have four interchangeable sizes that fit over 95% of faces
- **Appeal** - Both gel and silicone cushions can endure all approved disinfection options*
- **Performance** - Intuitive fitting adjustment for clinician and patient

Benefits for homecare providers

- **Simplicity** - Amara is the only convertible solution that easily expands patient options with silicone and gel
- **Appeal** - Most appealing among leading traditional full face masks on the market
- **Performance** - Four different sizes fit over 95% of faces

*Please see the Disinfection Guide (part #1061850) for Professional Use only for the list of approved cleaning and disinfection processes for Amara.

Fit for Life. Masks now come with complete resupply service

Philips Respironics is the first to introduce a comprehensive patient interface solution that serves the needs of patients and providers for the long run. Every new mask now comes complete with resupply service at no additional cost.

At Philips Respironics we're listening carefully to you and working toward solutions that contribute to healthy patients and healthy businesses.
