Freedom to move

Opus³⁶⁰

NASAL PILLOWS MASK

The Opus³⁶⁰ Nasal Pillows Mask is small, quiet and superbly comfortable, offering unprecedented freedom. The slim-line design allows for almost any sleeping position without mask displacement. Its innovative 360-degree pivoting ball-and-socket elbow provides greater versatility. With its new Silicone Pillows and facially Contoured Mask Frame for extra stability, patient comfort is paramount.

Elegant in design and simplicity, let the Opus³⁶⁰ Nasal Pillows Mask from Fisher & Paykel Healthcare work for you today!

**NEW::
Contoured Mask Frame**

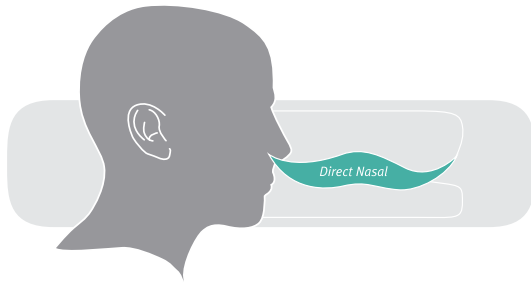

Facially contoured, the three-dimensional support structure conforms naturally to provide maximum stability and comfort.

Direct Nasal Delivery – Opus³⁶⁰

The Opus³⁶⁰ Nasal Pillows Mask is small, quiet and superbly comfortable, with anatomical pillow-style Silicone Seals and a facially Contoured Mask Frame. A ball-and-socket elbow combines with an innovative anchoring system to give unprecedented freedom of movement and stability. The Opus³⁶⁰ Nasal Pillows Mask is a complete, Out-of-Box Solution, fully assembled and ready for use with alternative sizes of Silicone Pillows included.

UNIQUE MASK FEATURES FOR GREATER FREEDOM, COMFORT AND COMPLIANCE

NEW::
Anatomically Shaped Pillows
Mask comfort

The Anatomically Shaped Pillows provide easy fitting with an excellent seal. The contours of the nasal pillows ensure greater comfort. The range of sizes provided (S,M,L) ensures comfort and seal are not compromised.

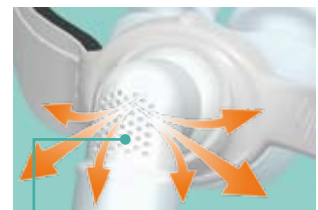

NEW::
Contoured Mask Frame
Mask stability

The facially Contoured Mask Frame, with three-dimensional support structures, conforms naturally to the shape of the face to provide a comfortable fit and reliable support. Its slim-line design allows side-sleeping without mask displacement.

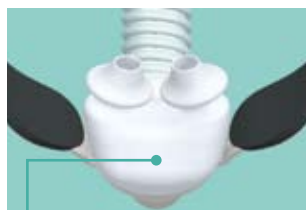

Tube Anchoring System
Mask stability

The innovative pivot system allows the tube to be anchored at the top or side, or left free to track. Elegant in design and simplicity, it firmly holds the tube in the desired position. Alternatively, the tube can be left unanchored so that the ball-and-socket elbow allows true 360-degree freedom.

Efficient Exhaust
Quiet usage

The advanced air diffuser system is quiet, minimizing the noise and draft of the exhaust flow to prevent both sleeper and partner disturbance.

Soft-Lip™ Cushion
Mask comfort

The Silicone Seal is soft on the nose and supple on the upper lip. The built-in Soft-Lip™ Cushion conforms naturally to the shape of the upper lip, for maximum comfort.

Premium Frosted Silicone Seal
Optimizing seal technology

The enhanced seal technology has a soft, smooth feel and slides easily into position. Its frosted texture optimizes mask seal performance.

NEW::
Hidden Strap Release
One-step removal

Easy one-step removal of Headgear for cleaning. Enables reassembly without having to make readjustments. Simply slide the Side Strap down and out of the Hidden Strap Release hooks.

CONTENTS

- Complete Mask with Mask Frame assembled and ready for use
- All three sizes of Silicone Seal included (S,M,L)
- User-friendly Fitting Guide
