Enjoy the quiet and flexibility of Mirage Swift II

Mirage Swift II is designed to direct air away from you and your bed partner's face for quiet and gentle therapy. The Mirage Swift II is 86% quieter than Mirage Swift,* so you can sleep peacefully at night.

Better than Ever with Mirage Swift II

- **Quiet:** Provides quieter therapy so you and your partner can sleep well at night. Directs air gently and quietly away from you and your partner
- **Light and compact:** An effective option you can use every night or to complement a cushion mask.
- **Simple to fit and wear.** After first-time adjustments, you can fit your Mirage Swift II quickly and easily.
- **Flexible:** Four interchangeable tube positions let you sleep comfortably in various positions.

Fits you ... fits your lifestyle

- Mirage Swift II comes with three pillow sizes, one of them just right for you.
- Designed for freedom and comfort in everyday life, it is easy to put on and take off.
- You can wear it while reading or watching television—even with glasses.
- Light, elegant and compact, it's the perfect choice for an active lifestyle, ready to travel with you wherever you go in its own handy bag.

Some choices are easy ...

A light, flexible, quiet mask from ResMed

- The leading nasal pillows system for CPAP therapy from the world leaders in mask technology.
- One of the lightest nasal pillows systems you will ever wear, the Mirage Swift II weighs less than 2.5 oz (about 72 g).
- The Swift II sits lightly on your face, with the pillows positioned at the entrance of your nostrils. Minimalist design limits contact with your face so you feel comfortable during therapy.
- Mirage Swift II has very few parts and is designed for easy fitting, handling and cleaning.
