

NASAL-AIRE® II PETITE

PETITE NASAL CPAP INTERFACE

The Nasal-Aire II Petite allows smaller patients to benefit from Nasal-Aire technology. Lightweight, soft, comfortable and quiet, the Nasal-Aire II Petite is the smart choice for the smallest patients. Patients can rest comfortably in various positions without the restriction of a traditional nasal mask and cumbersome headgear. Easy-to-fit, ergonomically designed *Micro* headgear reduces facial pressure points for added comfort.
