

Reliable aerosol delivery that you can trust

InnoSpire Elegance compressor nebulizer system

A powerful compressor and a compact design combine to create a nebulizer system you and your patients will value. Elegance, part of the InnoSpire family of compressor nebulizer systems from Philips Respironics, provides fast, efficient and reliable drug delivery to patients at home.

This elegant performer weighs only 3.3 pounds and works efficiently with proven SideStream aerosol technology. It includes a handset, docking station, filter and power cord and is covered by a 5-year warranty. Elegance is also compliant with the international safety and essential performance standard IEC 60601-1 third edition and its amendments.

sense and simplicity

InnoSpire Elegance

InnoSpire Elegance and SideStream technology

Elegance and SideStream disposable and reusable nebulizers combine to provide fast and efficient drug delivery. SideStream nebulizers feature an active venturi system that provides air flow in addition to that supplied by the compressor, resulting in faster drug delivery and shorter treatment times. They are easy to use with fewer parts to assemble or clean than other conventional nebulizers.

Venturi system

provides a faster delivery rate resulting in shorter treatment times than other conventional nebulizers

Innovative design
consistently produces high-quality aerosol

The breath-enhanced SideStream Plus nebulizer features an easy-action inspiratory valve that opens on inspiration to boost medication delivery and closes on exhalation, preserving medication and reducing waste.¹ Less pressure is required to open the inspiratory valve compared to other breath-enhanced nebulizers.* And there's no need to remove the valve when using a mask, making treatments easy for pediatric and elderly patients.

SideStream Plus

Product specifications

Weight	3.3 lbs.
Size	4.2" x 6.5" x 6.5"
Electrical rating/power	120V/60Hz, 1.7 Amp
Nebulization capacity	8 ml
MMAD	(80%) <5 microns
Treatment time	5-7 minutes
Maximum pressure	44 psi
Maximum flow rate	9.4 LPM
Operating flow rate	7 LPM @ 10 psi
Mode of operation	Continuous
Warranty	5 years
