# Take an active role in your sleep apnea therapy

SleepMapper is a mobile and web-based solution designed to help sleep apnea patients enhance their sleep therapy experience.

- See your therapy data quickly and easily through your smartphone, tablet, or computer.
- Watch videos and guides about sleep apnea and your Philips Respironics System One sleep therapy equipment.
- Have the information you need to know more about your therapy.

## Could you benefit from using SleepMapper?

### Do you have:

- an interest in seeing your sleep apnea therapy results?
- a desire to learn more about sleep apnea and understand how your therapy equipment works?
- a Philips Respironics System One sleep therapy device?
- a home computer that can download an SD card and has high-speed Internet connection, or a compatible\* smartphone or tablet device?

Visit [sleepmapper.com](http://sleepmapper.com) or talk to your homecare provider to learn more.

\*Certain specifications are required:

SleepMapper.com – supported browser versions: Internet Explorer, Firefox and Google Chrome

SleepMapper Mobile App – iOS and Android

# See your therapy results easily

## To see results on your computer:

Use the SD card included in your System One therapy device and follow these easy steps:

- 1 Go to [www.sleepmapper.com](http://www.sleepmapper.com).
- 2 Create your free account.
- 3 Begin transmitting your sleep therapy data.

## To see results on your mobile device:

Use a Bluetooth module\*\* that attaches to your System One therapy device, and follow these easy steps:

- 1 Download the free SleepMapper app\*\*\*.
- 2 Create your free account.
- 3 Begin transmitting your sleep therapy data.

**With SleepMapper, therapy information is easy to see, simple to find, and all at your fingertips, through your smartphone, tablet, or computer.**

\*\*Available from participating homecare providers.

\*\*\*Available from either the iTunes store or Google play.
