AirFit™ N30i
Nasal cradle mask

ResMed.com/N30i

Start dreaming again

The benefits of sleep apnea treatment are truly remarkable. Getting a good night's sleep gives you the energy to get back to doing the things you love. But one of the most inspiring things people tell us about starting CPAP is that they're able to dream again.

Congratulations
on taking
an important
step toward
restful sleep.

ResMed is the #1 mask brand preferred
by patients¹, and we're excited to present
AirFit™ N30i.

You're in good hands with ResMed AirFit N30i

Sleep the way you want.

The innovative N30i features a top-of-the-head tube design that gives you the freedom to sleep in any position. And the curved cradle cushion sits comfortably under your nose, making it easy to sleep on your side or stomach.

Get closer to your partner.

Sleep more freely and closer to your bed partner. With no front-end tube, the mask stays out of sight and out of the way.

Simplify your bedtime routine.

The mask is specially designed to slide quickly on and off to make your bedtime routine easier. The quick-release elbow makes it easy to disconnect the mask from tubing if you need to get up at night.

AirFit™ N30i
