**ResMed**

**AirFit™ P10... a quieter mask to fit your sleep.**

The ResMed AirFit™ P10 nasal pillows mask delivers the premium performance and reliability of the Swift™ FX mask, yet it’s approximately 50% lighter and 50% quieter.¹ A recent study found that patients slept more than 40 minutes longer per night using the AirFit P10 compared to the leading nasal pillows mask.²

**Benefits for you...**

- **Supports patient acceptance** thanks to ease of use, lighter weight and greater comfort.
- **QuickFit™ auto-adjusting headgear** can be fitted in 30 seconds or less.³
- **Simple sizing and color-coded pillows** make fitting easier, encouraging patient compliance.

**... and your patients**

- **QuietAir™ woven-mesh vent** makes this ResMed’s quietest mask at just 21.4 dBA.*²
- **Minimal design and light weight** (1.6 oz) deliver a high level of comfort and facial freedom.
- **Just three parts** — frame, cushion and headgear — make it easy to assemble and take apart for cleaning.

---

**Fitting Guide for AirFit P10**

1. Hold the pillows at your nose, ensuring that the pillow size indicator is on the bottom and you can see the left (L) and right (R) orientation indicators.
2. Stretch the lower strap around the back of your head.
3. The top strap should sit comfortably on top of your head.
4. Pull the headgear over your head by holding the lower strap.
5. Finally, connect the end of the mask’s tube into your device’s air tubing.
6. Turn on your device — your mask is now ready to use.
7. Move the mask away from your face, and then place it back again.
8. Ensure the nasal pillows fit securely into your nostrils with both pillows positioned upright.

---

*Declared dual numbered noise emission values (with +10% by A-weighting) in accordance with ISO 4871.
¹ ResMed Ref: D000-0201; eLB0798-206.
³ ResMed Clinical Study FECS3 Ref: D629-117 (page 9). 90% of participants fitted the mask comfortably in less than 30 seconds.
Comfort with stability.

A recent clinical study found that more than 70% of patients preferred the new ResMed AirFit P10 to the popular Swift FX mask for both comfort and stability. On average, participants also slept more than 40 minutes longer per night using AirFit P10 compared to the leading nasal pillows mask.\(^1\)

The AirFit P10 nasal pillows mask provides a stable seal and a high level of comfort, with excellent usability. It also provides patients with a real sense of facial freedom. The mask’s innovative QuickFit elastic headgear is unobtrusive yet provides a two-point head support with minimal facial contact—designed to encourage easy patient acceptance.
