

Classic comfort

ComfortClassic nasal mask provides quality performance in a no-nonsense package.

Sometimes a simple solution is the best. No wonder this uncomplicated mask remains a favorite to those looking for a good seal, reduced complexity, and great value.

ComfortClassic sets a standard of comfort and convenience for virtually any of your male or female patients. With a dual-layer silicone cushion, the outer membrane creates a comfortable seal, while the inner layer provides stability. A dual-position gel spacer allows the mask to adjust to the patient's profile. It also conforms to the wearer's forehead for even greater comfort and stability. Round out the package with our deluxe headgear, and you have a high-performance, affordable mask that helps you fit 100% of your patients, 100% of the time... while also helping your bottom line.
