

DeVilbiss FlexSet® Nasal CPAP Mask

One Mask, So Many Options

With so many nasal CPAP mask options on the market, it is cost prohibitive to stock all of them. The DeVilbiss FlexSet mask provides four different cushion options, thus you can minimize the array of masks you stock and **build the mask to suit your patient**. Additionally, the tubing can be worn straight down or over-the-head for added flexibility.

The FlexSet is amazingly intuitive to use and care for. This innovative interface features a unique forehead adjustment and pivoting design that help to ensure a **secure, leak-free fit on most facial profiles**. Furthermore, its lightweight design and minimal headgear make the mask **extremely comfortable** for the patient to wear.

At DeVilbiss Healthcare it is our goal to provide you with options that will satisfy your needs as well as the needs of your patients.

DeVilbiss FlexSet
Nasal CPAP Mask
9354D

Performance Features

- Patented **adjustable exhaust port** allows patient to direct escaping air away from their chest or bed partner
- One-piece, **self-anchoring headgear** is easy to use
- Dual-pivoting forehead rest and mask bridge for greater comfort and improved fit
- Two ultra-soft Breath-O-Prene® forehead pads included for optimal patient comfort
- Hose connection swivel elbow that **rotates 360 degrees** or can be locked in an upright position to run tubing over the head.

Design Features

- 100% latex free
- Soft, replaceable cushion provides a comfortable low pressure seal. Available in standard and shallow sizes and silicone or gel material.
- Quick disconnect for ease of use – tubing can be disconnected from the mask swivel.
- Minimal headgear offers a secure fit and features a quick release buckle.
- Supplemental oxygen port.
- The FlexSet mask provides a modular and easy-to-use nasal CPAP interface that allows users to build a mask to suit their needs.
- There are currently 4 different cushion options available (see accessory and replacement parts listing below) and each FlexSet mask comes complete with 2 different forehead pad options.
- The FlexSet Mask is dishwasher safe (with cushion, headgear and forehead pad removed).
