

# OxyCozy

## SOFT FLANNEL CANNULA WRAPS

OxyCozy Cannula Wraps add a layer of soft comfort to your life, wrapping your nasal cannula in gentle flannel to help prevent the skin irritation and chilly noses that can plague oxygen users.

## INSTRUCTIONS FOR USE

1. Align OxyCozy's "button" hole over your cannula's nasal prongs.
2. Press OxyCozy down firmly to ensure it rests snugly against your cannula's tubing without blocking the oxygen outlets on the nasal prongs.
3. Wrap OxyCozy's fabric all the way around the cannula tube and seal securely with hook & loop closures.
4. Wear your cannula as usual with the addition of cozy comfort and style!

## WASHING INSTRUCTIONS

OxyCozy Cannula Wraps are removable and reusable. For best performance, wash OxyCozy in warm water with a mild soap. After washing, air dry completely before reapplying it to your cannula. Replace OxyCozy as needed whenever it appears worn or damaged.
